Stories about Women is a joint project by Iwona Loranc and Grzegorz Tomczak. As the title suggests, women are its inspiration and the protagonists of the songs.

She and He sing about women's emotions, feelings and fears, drawing portraits of remarkable characters. Iwona Loranc, an artist with a velvety voice, refined sensitivity and great emotional power, guides listeners through the stories. She is joined by Grzegorz Tomczak, the author and co-performer of all the songs.

These are stories about you, Ladies - and also about you, Gentlemen. Wherever there are women, men appear too. It has always been so; it is a law of nature.
